Management
Training Program

Group 3

Group Leader: Leanne

Members:

Serena Tam Alex Tsang

Chan Tsz Ki Ku Yan Ki

Income and Expenditure

- Buy a total of \$100 things to win
- To buy the things, we need to find a job to earn money
- First , we are on a working point that can earn money in two ways
- Second, If we have money, we can buy things to win or study in the University
- If you go to the University, you will have more chances to roll the dice
- If we buy the same categories of the things, we have bonus money
- By the way, we will pass the bank, we can save the money in it

Strategies

- Save up money
- If we are left only 10 dollars, we should find a job first
- Find a University to get more chances

Credit and Interest

- Buy things to earn more hearts
- The person with the most hearts will win
- You can loan money to buy things
- In the game, we have three “show off times”

Strategies

- Buy things earlier to get more hearts
- Loan money earlier so you have more time to return it
- Also , we can buy more of the same things to get more bonus in the “show off time”

Chief Executives

- You have six people to support
- You need to try and get the highest points
- When someone reaches the final round, we have to vote
- If there is one objective, that person is out
- If all the group support that person, he is the chief, the game is over
- We only can use two objective cards

Strategies

- Keep our six people in a high level
- We cannot use our objective cards randomly
- When the other groups have no more objective cards, we can raise our people to do the chief
- Keep track of who supports who and how many objective cards are left

Stockery

- We can buy and sell share cards
- We roll a dice to see if the stock is high or low
- There are five companies, you can buy their share cards
- To win, you have to have the most money

Strategies

- Buy the share cards when stock is low
- Sell share cards when the stock is high
- Save at least \$20 incase of emergency

HE'S SUAN YI TAI
BUT HE'S SICK
